

The Kilimanjaro Safari Circuit: a legendary safari combination in Northern Tanzania  
 Escape from the cold season and experience Oscar - nominated scenery at the foot of Mt. Kilimanjaro

**Hatari Lodge** is located in the midst of the lush and green environment of **Meru Ecosystem**, where mosses grow on trees in the mountain rain forest and Colobus Monkeys playfully swing from branch to branch. **Shu'mata Camp** sits right on top of a hill in the midst of the **Maasai Steppe** that belongs to the dry and dusty **Amboseli Ecosystem** with its shrubs, Acacia trees and old Amboseli tuskers, facing the "Seven Sisters" and Mount Kilimanjaro. Realizing how close to each other these two ecosystems are – only one and a half hours' drive apart – we understood how amazing it would be to combine the two locations into one safari circuit from two up to seven nights at Hatari Lodge and Shu'mata Camp. We also became aware that many visitors never get a glimpse of Mount Kilimanjaro, whereas on our circuit, it is impossible not to see this old giant volcano lady from nearly all directions. **It's simply the KILIMANJARO Safari Circuit!**
